Clēar

A Wearable Safety System

Keeping you and your friends safe

What is Clēar?

A **wearable safety device** that sends hourly vibrations to ensure friends stay together while simultaneously tracking your personal heart rate and movement to determine safety conditions.

Our Goals

1 Create a safer going out environment

2 Help you stay connected to your friends

3 Identify a possible emergency situation

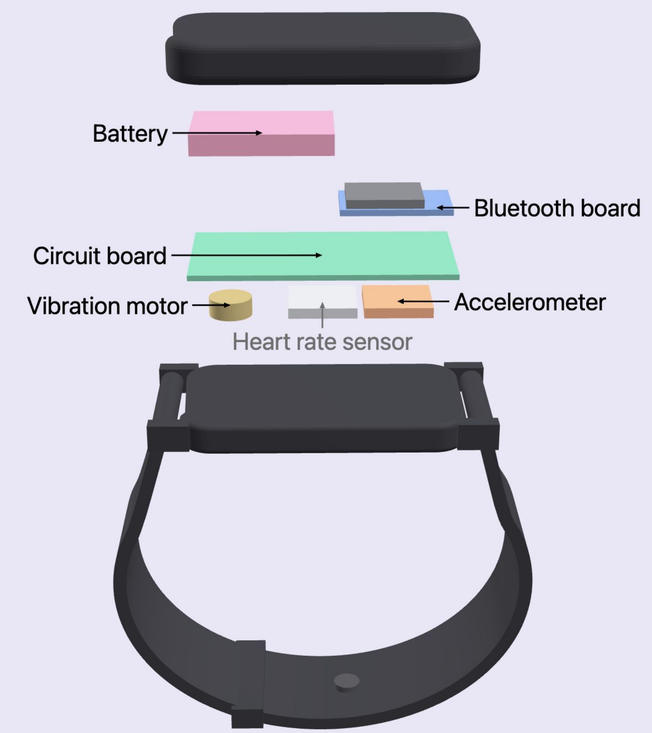

Clēar Ideal Customer

- Young adults and college students
- Guardians of these young adults

Distribution channels

- Direct-to-consumer
- E-commerce distribution

A special thanks to Professor Zarske, Professor Godrick, MJ Ervin, Katerina Sharman, and the ITLL staff for their support throughout this project
